

BasePygameQtScreen

```
classDiagram
    class BasePygameQtScreen
    class memory_screen_MemoryScreen["memory_screen.MemoryScreen"]
    memory_screen_MemoryScreen --|> BasePygameQtScreen
```

The diagram shows a class hierarchy. At the top is a box for 'BasePygameQtScreen' with two empty slots below the name. Below it is a box for 'memory_screen.MemoryScreen'. A blue arrow with an open triangle head points from the 'memory_screen.MemoryScreen' box up to the 'BasePygameQtScreen' box, indicating inheritance.

memory_screen.MemoryScreen
